EDUCATION

August 2015 - May 2018

UNIVERSITY OF CALIFORNIA, BERKELEY
Bachelor of Arts, Intended Computer Science (3.94 GPA)

The Structure and Interpretation of Computer Programs
Data Structures and Programming Methodology
Practical Programming / Applications
Introduction to Teaching Computer Science

EXPERIENCE

January 2016 - Present

UNIVERSITY OF CALIFORNIA, BERKELEY
Computer Science Tutor / Lab Assistant
I'm a current tutor and mentor for a class called CS 61A. I tutor at least three students a week and spend three hours a week being an lab assistant. Throughout my time tutoring and lab assisting, I was able to reinforce what I've learned the last time I took CS 61A, help others through guidance, and overall become a better instructor.

January 2016 - Present

MEED INC.
Technology Evangelist Intern
I'm a current intern for Meed Inc. I help monitor the website and give suggestions on how Meed can use its platforms to give better user experiences for its customers. I also use the platforms to build a computer science community by sharing resources. Some of these resources cover ways on handling a tech interview and knowing runtimes for data structures.

PROJECTS

April 2016

WWW.CASEYTAKEDA.COM
My Personal Website
Built my own website to showcase my portfolio work. by HTML/CSS/Angular.js

April 2016

WAKE UP WORLD
The Big Hack 2016 | Microsoft Reactor, San Francisco
Collaborated with two members to built an app using Swift2. In brief, "Wake Up World" is an alarm clock that establishes daily givings and focuses on connecting the world. Inspired based on the prompt provided by a non-profit organization known as Watsi.

March 2016

TEXT EDITOR
CS 61B Course Project
Built my own basic text editor that can be used to open, edit, and save text files. Some of the features include selection, copy/paste, undo/redo, font resizing, and word wrap. Learned from this project that even something simple to use can be quite a challenge!

March 2016

FORESTRY JAVASCRIPT CALCULATOR
Freelance Project
Built a simple calculator that can add, subtract, multiply and divide two numbers. Designed by HTML/CSS

SKILLS

Python	Java	Git	JavaScript/jQuery/Angular.js	Japanese
HTML/CSS	Adobe Photoshop/Illustrator/InDesign CC		Bash	Swift2
